THE FIRST GOAL

The first goal is not to convince PM, CMs etc to sign the RTI2 law. But the first goal is to attract and **convince concerned citizens** that they should ask PM, CMs to sign RTI2 law. So please note : entire goal of mine and RRP is to attract and convince citizens, not the leaders. And the entire goal of this document is to explain you some of the ways by which you can attract concerned citizens with near zero monetary costs and minimal time. Now you may say that my spending 10 minutes per week will not improve India and so I don't want to "waste" my N minutes. Well, I request you to consider different logic : of the all possible activities you possibly see and think, see which one is least inefficient and then please spend 10 minutes on it.

Money (except for newspaper ads) is useless – Your time and newspaper ads are only things I need

My belief (or superstition) is that the two words "Prajaa-aadheen Raajaa" will touch the heart of everyone who wants to reduce poverty and corruption. And two sentences that "Raajaa must be Prajaa-aadheen, or else he will rob citizens and thus destroy the nation" will stay in the minds of everyone who hears it once. Those who like concept of "Prajaa-aadheen Raajaa" have to only ensure that a person hears these words once. We do not need any marketing gimmick. We don't need any funfare or show of strength to impress people. These words will impress people more than 1000 market gimmicks and funfares.

Now my aim is get about RTI2, RTR, MRCM law-drafts passed. And in the first round, the only aim is to ensure that crores of citizens hear the two words "Prajaa-aadheen Raajaa" and the related two sentences. And in next round, I want to get the RTI2 law passed. And it is my belief that if RTI2 law is passed, then citizens using RTI2 will get most of the other laws passed in few months. Unlike other parties, winning election is not core or even an important part in the agenda. Contesting election is very important because election is the fastest tool to communicate with citizens about a proposed draft of the proposed law. Even if I and all RRG men lose elections, still we can improve India if we can convince the citizens to "work with" RTR activists in forcing PM in signing RTI2 law. Now what do words "wok with" mean? Does it mean collecting donations? NO. **I am completely against donations of money.** I do ask people to give newspaper advertisements to publish RRG laws, but here money directly goes to the newspaper, they will not pay me or any RRG volunteer. And it is optional for RRG members to give newspaper ads. But the most important thing and **only thing (other than newspaper ads) I need from**

you is your time. Now how much time do I would need from you, and what exactly I want you to do with your time? This booklets explains this in detail. Please take a print out of this chapter.

Is this another joke?

My opening line was “three line RTI2 law is sufficient to reduce poverty deaths and corruption in police in just 4 months”. And if that seemed impossible or a joke, then here is another one : *if as few as 200,000 individuals in economically top 5 cr of India spend mere 1 hour a week executing steps I mentioned, then within 6 months, their actions would create a mass movement which will force PM to sign the RTI2 law.* Why so small number of individuals are needed? Because the method I am proposing to publicize RTI2, RTR drafts is clone positive method. What the heck is this clone positiveness? I will explain in next chapter. It is the most important concept in activism, which sadly most activists in India has ignored till date.

Why not a different set of activities?

I promote variation, I do not insist on confirming except one should confirm to labels, terms and definition. If one wants to peruse alternative methods, then I request him to pursue the methods enumerated in this document, along with his methods as well. I promote variation because the method one thinks may be superior than mine, and if they are, more people will follow them and soon they will become well known enough that I will have to add them in this list. At the same, I request the volunteer to spend at least 60 minutes a week on the activities I have proposed as there is possibility that my list of activities is superior than his.

Time needed for activities in Set-I is only 1 hour per week. In each row, the first activity will take time mentioned in the second column. But alternative activity mentioned in the OR part would take much longer time, are optional. The activities in Set-II onwards are for those who are willing to spend more time. Spending money will be needed only for those who want to contest elections in Municipal Corporation, Panchayat, Assembly and Parliament.

List of activities , reason and time it would take time : Set-I

Time needed is only 1 hour per week. In each row, the first activity will take time mentioned. But the alternative may take much longer. The alternative mentioned in the OR part would take much longer time and are optional.

1.3 **** *	<p>Please sign the RTI2 petition at http://www.petitiononline.com/rti2en/ <u>How will this help us in bringing RTR, MRCM laws?</u> : Petition has no legal-political value. It is only an advertisement. More the number of citizens who sign this petition, easier it will be to attract more concerned citizens. The PM will surely disregard and so must he as signature on internet can be forged. But the number will be certainly useful in advertising before more and more concerning citizens. Your signing petition increases the rate at which others will notice this signature. And above all, it will not take more than 2 minutes of your time.</p> <p style="text-align: center;"><u>OR / AND</u></p> <p>Campaign for any petition demanding RTI2 or any law draft that you think can reduce poverty deaths and corruption in police in few months</p> <p style="text-align: center;"><u>OR / AND</u></p> <p>Write your petition demanding RTI2</p>	5

1.11 *	Create a “proper” profile on Orkut and GoogleGroups. The proper profile should have : 1. First name and last name spelled in plain ascii English and should have no other characters. Why? Because non-English characters are not searchable. IOW, if I spell my name in orkut in Gujarati or Hindi, then no one in Orkut will be able to search me and reach me. Also, many non English characters are unreadable and make reading painful. 2. In Orkut, please put “demands Right to Recall” or “supports Right to Recall” or “RRG” or “RRG” or “Right to Recall Group” or “Right to Recall Group” 3. The males are requested to put their passport size picture as their main picture. For females, picture is optional	20		
1.12	Please join RRG community in Orkut , Facebook, etc for your District/City. If there is none, please create it and advertise it on orkut. Please ensure that every member on District community is member in State, National community too.	2 to 20		
1.13	Please join RRG community of your Tahsil/Ward. If there is none, please create it and advertise it on orkut. Please ensure that every member on District community is member in District, State, National community too.	2 to 20

And at least follow two colleagues from your Ward/Tahsil, City and two colleagues from neighboring Ward/Tahsil, City/District. All in all, a member should follow about 10 accounts to create a communication network.</p> <p style="text-align: center;"><u>OR / AND</u></p> <p>Follow the account of any National/State level person who has committed himself to promote RTR laws.</p> <p style="text-align: center;"><u>OR / AND</u></p> <p>If you think that none is worth following, please yourself become a promoter of RTR laws and ask 1000 persons to follow your Twitter account</p>	20		
1.15	<p>Join at least 5 communities of other internet political groups such as groups of political parties or NGOs or any political groups. The groups can be on orkut or FaceBook or any community site. Which groups should you join? Join any group you think has members who are interested in politics.</p>	20		
1.16	<p>Follow http://www.youtube.com/MehtaRahulC youtube channel, so that every Right to Recall Group related video can come to you.</p> <p style="text-align: center;"><u>OR / AND</u></p> <p>Follow youtube account of any person that you think is committed in bringing RTR laws drafts in India. The above tasks in Set-I list will take you 4 hours at most, and you may split it over days if you wish. Of course, if you decide to follow options given under “OR / AND “ it would take more time.

How do these steps help?

One estimate is that about 6 crore people in India have access to broadband via their home PC or office PC or college PC. Of these 6 crores, about 15 lakhs to 20 lakhs are interested in reducing corruption in police, courts and also interested in reducing poverty and to an extent that they would be willing to spend 1-2 or more hours a week. The rest are not interested at all, or at best would vote for someone whom they think will reduce poverty. But they don't want to spend 1 hour a week for this task. So to create the movement, one will have to depend on getting support of these 15 lakh individuals. **The goal is to form a few communication groups amongst these 15 lakhs citizens.** I see no need to organize them ; IMO, forming communication groups are sufficient. Please note – I think that a few national level, a few State/District level communication groups are sufficient, we do not have to have an organization. An organization is different from communication group and I will explain that later. So the task of forming and working in a communication groups has following tasks : forming the groups or searching for them, joining these communication groups, reading messages in that communication group, writing messages if time permits, forwarding messages to inside and outside the group and seeking people interested in reducing poverty/corruption and asking them to join the communication groups. And most important is quitting the communication group if the main persons in-charge are not interested in reducing corruption, poverty.

The above tasks only consists of joining internet communities. **Why am I asking you to join these internet communities?** The purpose is to create several large pro-RTR groups on internet so that cost-free communication becomes possible. An ethical and reasonable demand like Right to Recall or MRCM does not need hype and grand shows, but **does need a lot of communication.** And efforts needed to communicate must be high because media-owners will not spend their money to communicate RTR drafts, and so pro-RTR people have no option but to work hard. So we using internet can communicate RTR drafts. Now what about rest 95% who do not have net? Some of the people in these 5% with internet will become more involved and will take the information to the remaining 95% via word of mouth or pamphlets.

Now let me explain why organization is not needed and may end up becoming waste of time. An organization is a group with hierarchy and assets. The hierarchy aka reporting structure is key and the members who defy reporting structures are often expelled or at least never ever promoted. The organization not only makes a list of “to-do” but also makes a list “cannot do” and thus reduces efficiency of member. An organization can be also hostile to variations and mutations. The organizations needs assets and significant funds are collected by membership dues or worse by collecting donations . The memberships dues mostly fall short. And so organizations ask members to collect donations. **And that's where the end begins --- the leaders of the organizations have to now accept terms and conditions of donors.** The unsuspecting members later realize this, but too much time passes away before this.

If one wants to do activities like running education institutions, hospitals etc then the funding and organization is must. But political reforms only needs communication and nothing more. Why? In general, any activity which needs time and money both needs organization. But if something only needs time and minimal money, organization is not needed, communication group will suffice. We already have an organization called as Government, and our goal is to improve Government. To improve Government we need to enact laws like Right to Recall. To enact laws like Right to Recall, Jury, MCRM etc we need law

like RTI2 or we need to win 100-300 Parliamentary elections. Winning election depends more on the mistakes of adversaries and is **clone negative** approach, while former doesn't need adversary to mistakes and is **clone positive** approach. And to have law like RTI2, we need a mass movement, and to create a mass movement, we need communication amongst those who want Recall, MRCM, Jury etc. We do not need an organization where people are giving and accepting orders on physical and material activities. The organization will only end up wasting away precious money and time.

Now do we need money to run a communication group? Common sense says that everything needs money. But in the model I proposed, the person with internet is already paying money in form of charged paid to internet company. So it is not free. So where is the difference in RRG and other organization who collect money? Well, in other organizations, you have to send money to those at the apex of organization and then hope that people at top will not siphon it away or people in middle who execute decisions but have no glory to gain will not siphon it away. While in RRG model, you directly pay to internet company, and not to any RRG officer bearer. This ensures that RRG activist working with you cannot siphon away money. And there will never be siphoning out of money.

Now what about 110 crore people of India who do not have internet? To communicate with some, we can use SMS, which again are free. For rest, we need pamphlets and newspaper advertisements. For this, those who are very much committed to Recall, Jury and MRCM laws may contribute, but pay directly to newspapers not to any RRG member. The first set of activities described above creates a big communication group. Next set of activities deal with attracting mediemen's attention.

List of activities , reason and time it would take time : Set-II

	<u>Set-II Activities</u>	<u>Approx time (in min)</u>	<u>Too k step ? (Yes /No)</u>	<u>Took step? When ? Date</u>
2.1	Send a letter to PM asking him to sign RTI2 law. The letter will have only one line : “if and when you are convinced that 37 crore citizen voters of India support the Govt Notification given at http://petitiononline.com/rti2en/ , or http://rahulmehta.com/002.pdf please sign that notification” would suffice. 2.5	Send letter to Mayor and/or District Panchayat Sarpanch	10		

	<u>Set-II Activities</u>	<u>Approx time (in min)</u>	<u>Too k step ? (Yes /No)</u>	<u>Took step? When ? Date</u>
2.6	Write a letter , send email and call every newspaper, magazine you subscribe, and ask them to cover the RTI2 law, RTR laws, MRCM law and Jury System or any DRAFT that you think can reduce corruption in policemen, judges. Ask them to publish articles from my website or take my interview or interview of any RRG official.	30		
2.7	Write a letter , send email and call every news channel you subscribe , and ask them to cover the RTI2 law, RTR laws, MRCM law and Jury System or any laws' DRAFTS that you think can reduce poverty, corruption in judges etc. Ask them to publish articles from my website or take my interview or interview of any RRG official.	30		
2.8	Give print out of RTI2 law to 5 local party members of ruling and major parties to ask PM, CM to sign RTI2 law.	60		
2.9	Attend meetings of as many NGOs as possible and ask them why they refuse to support RTI2? Ask every intellectual if he supports or opposes RTI2	60		

The letter has more credential that internet petition. And if PM doubts the credential of the letter, he is welcome to ask Talati to let citizens come to Village Office and let Village Officer verify and record the identity of the citizens.

List of activities , reason and time it would take time : Set-III

The third set of activities deal with finding more people who would be interested in reducing poverty/corruption via MRCM, Recall, Jury etc laws. Now if you randomly select 100 persons in any country, not just India, only 2% to 4% would be interested in spending time to reduce corruption/poverty. Even though 99% would oppose corruption and some 90% dislike poverty, only 2% to 4% would agree to spend say 1-2-more hours a week in reducing corruption or poverty. The rest may vote for a **winnable** good candidate or send SMS to support a good law or attend a rally once a year. But they will not spend more than one hour a year to campaign for a proposed law. Since all countries face this problem and many have solved it, we in India should not complain about this any further.

Now question is : how do we find these 2% to 4% who do want to spend time to reduce corruption, poverty etc. The activities in Set-III are methods to finds such persons.

	<u>Set-III Activities</u>	<u>Approx time (in min)</u>	<u>Too k step ? (Yes /No)</u>	<u>Took step? When ? Date</u>
3.1	Download http://rahulmehta.com/rp_questions.pdf . Answer at least one question a day	20		
3.2	Join at least 5-10 communities of other internet political groups such as groups of political parties or NGOs or any political groups. The groups can be on orkut or facebook or any community site. Which groups should you join? Join any group you think has members who are interested in politics.	60		
3.3	Read the posts in these communities. See if you think that postor may be interested in reducing corruption, poverty. If yes, send him a scrap explaining RTI2 etc. Send scrap to 10 persons every week. On an average, only one will reply.	20		
3.4	Upon contact, explain them how RTI2 etc law can reduce corruption, poverty.	60		
3.5	Send him this list, and if he is willing, ensure that he has done easy items in this list.	10		
3.6	Attend RRG meetings at any near by place.	60		

List of activities , reason and time it would take time : Set-IV

The set-IV is for more committed persons

	<u>Set-IV Activities</u>	<u>Appro x time (in min)</u>	<u>Too k step ? (Yes /No)</u>	<u>Took step? When ? Date</u>
4.1	Join at least 20 communities of other internet political groups such as groups of political parties or NGOs or any political groups. The groups can be on orkut or facebook or any community site. Which groups should you join? Join any group you think has members who are interested in politics.	60		
4.2	Read the posts in these communities. See if you think that postor may be interested in reducing corruption, poverty. If yes, send me a scrap. Send scrap to at least 20-40 persons a week.	40		
4.3	Upon contact, explain him how RTI2 law can reduce corruption, poverty	240		
4.4	Hold RRG meeting at near by place such as open garden etc	120		
4.5	Make xerox or offset of the pamphlets, and distribute 1000-2000 pamphlets in your area at bus stands.	120		

List of activities , reason and time it would take time : Set-V

The Set-V is for those who wish to contest election on Right to Recall, MRCM, Jury etc laws and/or have decided to devote a sizeable part of their life and incomes to get RTR laws in India. For them, they may as much time as they wish. So I am not putting any time estimate here.

	<u>Set-V Activities</u>	<u>Appro x time (in min)</u>	<u>Too k step ? (Yes /No)</u>	<u>Took step? When ? Date</u>
5.1	Do all the actives in Set-IV with twice the force and time	----		
5.2	Make offset copies of the pamphlets, and distribute 1000s of pamphlets in your area at bus stands.	----

Demonstrations for Prajaa-aadheen Raajaa aka RTR, MRCM, Right to Recall law-drafts

For the next few paragraphs, I define RTR-supporter as person who is willing to spend 10 hours a month to bring RTR law-drafts in India. To such supporters, I have following request-suggestion about holding demonstrations :

1. Please spend 5 hours a month on net or person-to-person communication, pamphlet distribution etc.
2. Next 5 hours, please attend one whole day demonstration once every 2 months or attend one demonstration once every month for half a day.
3. If there are 100 supporters of RTR, please do not call all 100 supporters on same day. Instead call 25 supporters on 4 consecutive days
4. If there are 1000 RTR-supporters, please do not call all 1000 supporters on same day. Instead call 25 supporters on 40 consecutive days
5. One desirable goal is to have a city where there are 1000 to 2000 RTR-supporters in a city each willing spend 5 hours a month for demonstrations, and that city is having one RTR demonstration **every** day consisting of 25-50 RTR supporters.

Why do I support everyday small-midsize demonstrations than one giant demonstration a day? Because one demonstration a day will spread the information about RTI2 law-draft, RTR law-draft etc in much faster way while one giant demonstration will only give impression of strength but spread no information. My goal at RRG is to spread the information on RTR, MRCM, RTI2 law-drafts etc. And so that goal is better served by one small demonstration everyday.

The purpose of demonstration is to approach a large number of citizens who have no access to newspapers and cannot be approached even by pamphlets. The demonstration is a proof of commitment

that people are willing to spend time on an issue. It is not utter waste of time as many junior activist believe.

List of orkut communities where you can approach politically active persons of your city

In general, only 2% to 5% persons are interested in improving laws of their nation. This is true for all across the world, and so we should not complain. Americans, with same small population has managed to improve America, and so we should not complain about the fact only a small number of people are interested. But on orkut, in political communities, over 30% to 40% people will be interested. So approaching them will be time more productively spent. This is not to say that you should never approach people around you, but please do spend some time in sending scraps to members of following communities in your city.

Please note that below is just a sample short list. There are many more communities , and please approach members in those communities a well.

1. Right to Recall Group
