collect the signs who wrote Aithalaved and Swami Dyanand are:

Police Commissioner, Ministers, Judges etc with US Police Commissioner, Ministers, Judges etc shows how **and destroy the nation**”; And he has taken shlokas from Aithalaved. And a curious comparison of India’s good politics. And then he elaborates : **“Kasija must be Pralija-sardheem or else he will rob the citizens gives two words - “Pralija-sardheem Kasija”**. And in these two words, he summarizes 10000 proposals on the very first page of chab-e Swami Dyanand establishes the foundation of Kasij-Dharm. **Swami Dyanand** in this chapter, Swami Dyanand enumerates powers of citizens, officers, Ministers, Judges and their duties. In Indian concept, as many anti-recall intellectuals say, **NO**. Chab-e of Satyarth Prakash is **“Kasij Dharm”**. In

Now is this procedure to expel nodal officer, aka Right to Recall an American concept? Is it an un- these nodal officers like Police Commissioners set traps and so corruption in junior staff is less:

State. So Police Chief and all nodal officers fear that **it staff becomes very corrupt, citizens may expel him**. And so approach MLAs or PM or party leaders or judges – the citizens only need to prove majority opinion in that District or want to expel CM, Mayor, District Judge, District Public Prosecutor, District Education Officer etc they don’t need to High Court Judge or Supreme Court Judge dare to throw stay order and delay his expulsion. Likewise, if citizens in US Commissioner to be expelled. And once the majority is proven against a District Police Chief, he is expelled and no Court Judges and the worthless PILs. The citizens in US only need to prove that majority district voters want Police to approach DIC or CM or Home Minister and file complaints. The citizens of US also do not need to approach High **Police Chief (aka Right to Recall)**. **LOW**, if citizens in a US district want to expel District Police Chief they don’t need **lesser corruption in US policemen?** The one and only reason is : **citizens in US have procedure to expel District** as a white lie. It reeks and stinks like “women are responsible for rapes”; **Then what are the real reasons behind** policemen/judges !! These “blame the victim”, explanation given by intellectuals with a digit 10 is something I dismiss culture etc. **LOW**, as per these intellectuals with a digit 10, we the citizens are responsible for the corruption in India are more corrupt because we commons are uneducated, unaware, lack moral character, we have bad political culture a reason? Many intellectuals (ku-buddhegeevies?) of India have a digit 10, and they say that policemen in will they will they give us even 10% discount in prices starting next week? Then what else can be the reason? Is our main reason for low corruption? Well, let’s say we double the salaries of our policemen/judges in India this week, then saints flee from greed? **NO**. There can’t be millions of greed-free people in any country. Then is higher salary alone pardoned me two times, but didn’t even hint that they were interested in bribes. Why? Are all policemen/judges in US from 1990-1998. I was stopped by Constables 2 times for traffic violations. The constables fined me three times and corruption in India’s police/courts. **EVERY** MP in India must have noticed this from day one. E.g. when I was in US

You must have heard from your relatives, friends in US that the corruption in US police/courts is far less than
