

**Appeal to all pro-poor anti-corruption activists** (advertisement)

## **This 3 line (proposed) law is enough to reduce poverty and corruption in police, courts, education in 120 days**

This is a public interest appeal from '**Right to Recall Group**' to all pro-poor, anti-corruption activists about a discovery in Political Mathematics

**Convener** : **Rahul Chimanbhai Mehta**, B Tech, Computer Science, IIT-Delhi; MS, Computer Science, Rutgers University, USA

Before zero was discovered, multiplying numbers like  $(453 * 233)$  used to take several minutes and pageful of calculations. After knowing '0', such multiplications take a minute and a few lines. Likewise, I have **proposed** a mere 3 line law namely **RTI2**, which **I claim is the 'zero' of Political Maths**. And once activists manage to convince/force the Cabinet Ministers to sign this 3 line RTI2 law, the events that will follow will reduce poverty in **only** 120 days. And corruption in police, courts, education will become nearly nil in just 120 days. So what is this RTI2? [rahulmehta.com/001.pdf](http://rahulmehta.com/001.pdf) explains in 4 pages and a detailed 320 page explanation is at [rahulmehta.com/301.pdf](http://rahulmehta.com/301.pdf) . **Summary** of RTI2 is :-

1. Govt orders Collector that if a citizen wants, then Collector (or his clerk) will put citizen's complaint (affidavit) on PM's website for fee. The citizen doesn't need internet; affidavit is put by Collector's clerk.
2. Govt orders Patwari (Talati, Lekhpal) that if a citizen comes with voter-ID, pays Rs 3 fee, and wants to add his name to a complaint, then Patwari will enter voter-ID etc in computer, take Rs 3 fee and put the citizen's name on the PM's website. And Talati will give a receipt.
3. The affidavits will not be binding on PM, any officer etc.

**That's all**. So how can a petty procedure as above – filing complaints, adding names to complaints reduce poverty? How can it bring down corruption in police, courts, education etc to near nil levels?

1. In **Satyarth Prakash**, chap-6 Raajdharm, page-1, Maharshi Dayanand says: "**Rajavarg must be Prajaa-aadheen**; a Raajvarg that is not Prajaa-aadheen will rob citizens and destroy nation", just as we are seeing today. RTI2 law will enable us commons to enact Right to Recall PM\CM, Right to Recall Supreme Court judges, RTR Reserve Bank Governor etc laws in 60 days. RTR will make Raajvarg Prajaa-addhen and so corruption will reduce in next 60 days.
2. Athavaved says : "the people of nation, own all natural resources". RTI2 will enable citizens to enact MRCM law in 60 days which will ensure that royalty coming from natural resources and rents from GoI plots goes to citizens, and thus poverty will decrease in next 60 days.

I cant put more in an Ad. For details, see [rahulmehta.com/001.pdf](http://rahulmehta.com/001.pdf) and [301.pdf](http://rahulmehta.com/301.pdf) .
