

# Why is corruption in US police, courts less compared to India? – Part -II

And is there something –**YOU**– can easily do to reduce corruption in India?

**Yes.** You can. You can start with sparing **20 minutes** to read this page

This advertisement is in continuation of yesterday's advertisement. **Pls see yesterday's Mirror back page** for Part-I.

My first advertisement discussed why corruption in much less in US police, courts. The one and only one reason is – **the citizens in US have procedures to replace District Police Chief, judges, Govt lawyers** and even Governors. Please do a Google on "recall judges", "recall sheriff" and you will see 10s of articles. Please do see for yourself.

The **Recall procedures**, by which citizens can DIRECTLY recall Police Chief, judges, Govt lawyers and other officials is the ONLY reason why Police Chiefs in US are less corrupt and they ensure that their junior staff is also less corrupt. Because if the junior staff is corrupt, then Police Chief too will end up facing the wrath of the voters.

Wont recall result into very frequent changes? No. When recall procedures come, **the officers behave well, and so recall is seldom needed.** In fact, when recall procedures are in place, it improves the behavior to a point that re-election rate increases !!

Once upon a time, people in US too did not have recall procedures. They created recall procedures. And that's what you can do- work towards the cause of creating recall laws in India.

How can you make the recall demand louder? If YOU spend 2 hours a week in a campaign to create recall procedures over PM, CMs, District Police Chiefs, judges, Govt lawyers, this would create recall laws, and reduce corruption. So here is my question to you : can you spare 2 hours a week to bring recall laws in India? If yes, here is something you can do very soon.

In this election, in Gandhinagar Constituency, **there is one candidate who is publicizing Recall laws** over PM, CMs, District Police Chiefs, Govt lawyers, Reserve Bank Governor etc. And that candidate is myself, **Rahul Chimanbhai Mehta**. My number is 17, and the **symbol is Battery Torch**. I am a software developer, and my income is 100% white and comes after tax deductions. And I am spending my own money to advertise Recall laws, so that

whether I loose or win, at least lakhs of citizens of India get information about Recall laws. I would give you more information about me. I am 40 years old. I did **B Tech in Computer Science from IIT Delhi** and then did **MS from Rutgers University, NJ, USA**. I worked in USA for next 8-9 years and then came back to India in March-1999. I had never ever applied for the Green Card, as I eventually wanted to come back. But the day I landed in US, the two questions that puzzled me were : 1)why is US so less corrupt, and 2)what can be done to bring India at par with US. It took me several years of study to understand US system, and figure out this simple fact that – that low corruption is mainly due to Recall procedures. Next, I spent years in to find a away to bring recall etc procedures in India.

If a candidate opposes Recall, he is essentially saying that "elect me for 5 years, and you cannot expel me". If you support Recall laws, then your voting for anti-recall candidate would be a terrible waste of your vote.

I need your support in enacting recall laws in India. I request you to ask EVERY candidate if he supports Recall laws or not. And as such, what is there much to ask? You see candidates spending huge money in giving their pictures ; they have money to spend on road shows and invite actors. But they dont want to spend money in advertising recall laws etc. If they were supporters of Right to Recall, why didn't they spend their campaign money to publicize these laws, just as I do? And would **you** vote for me, who gives information to voters, or someone who spends money in throwing pictures and road shows?

And how do we make big party leaders listen to Right to Recall demand? **Your voting for me would cut their votes, and that is the ONLY way to make them listen.**

And **if you wish to join Right To Recall Party**, please send me an email at [MehtaRahulC@yahoo.com](mailto:MehtaRahulC@yahoo.com)

In addition, pls see details of other 70+ laws I have proposed at <http://rahulmehta.com>

## And what can **YOU** do to reduce poverty?

In addition to corruption, a big problem is poverty. In India, 34 out of 1000 infants die before they reach age of 6. This number in Cuba is only 6. IOW, poverty is killing lakhs of kids every year. And **did you know that per capita pulse consumption has decreased by 20% in past 17 years?** In 1991, it was 41g and now it is only 31g. Did you know that per capita grain consumption decreased by 5% in past 17 years? The medicine prices have increased by several times – the incomes of poor has not increased by that many times. So they have less food, less medicine. And housing? Prices tripped in past 8 years. Their income hasn't tripled? If poverty keeps increasing, Naxalism will increase all over India.

I have proposed following law : the Mineral Royalties and Land Rent from Govt plots should directly go to the citizens. eg if Land rent was Rs 30000 cr in say Jan-2009, then in Feb-2009 each citizen gets Rs 300 in his local post office account. This is NOT free money --- the mineral ores and Govt lands are property of citizens. Just as you getting rent from your flat is not freeloading, citizens getting land rent from GoI plots is not free loading. This mechanism would need no more than 400,00 clerks and will reduce poverty in within 3 months. Please ask every candidate if he supports this law necessary to reduce poverty. And if he doesnt, voting for him will only send wrong signals and add miseries to the poor.

**Please remember** : Recall laws are the only answer to corruption. If you dislike corruption, you MUST do everything possible to publicize Recall laws. To start with, pls vote for those who are taking pains to publicize Right to Recall laws. **Why didn't other candidate put such advertisement to inform you all about Recall laws?** Your vote is the ONLY way to give more publicity to the Recall laws. **Your voting for me will cut their votes and will increase the pressure on them to consider Recall laws.** And if you chose not to vote for me, the major parties will keep ignoring Recall laws forever. **So please vote for me, as that publicizes the Recall laws**, and pls ask all your friends, neighbors to do the same. Pls publicize recall laws as much as you can eg pls email, SMS the URL of this page to ALL your friends all over the world.

Age 40 yrs ; **B Tech, Computer Science, IIT Delhi**, MS Computer Science, Rutgers Univ, USA
